

# HYDRAQUEST UV COUNTER-TOP #250-HRO Hot & Cold

## \*A Complete 5-Stage Water Purification System

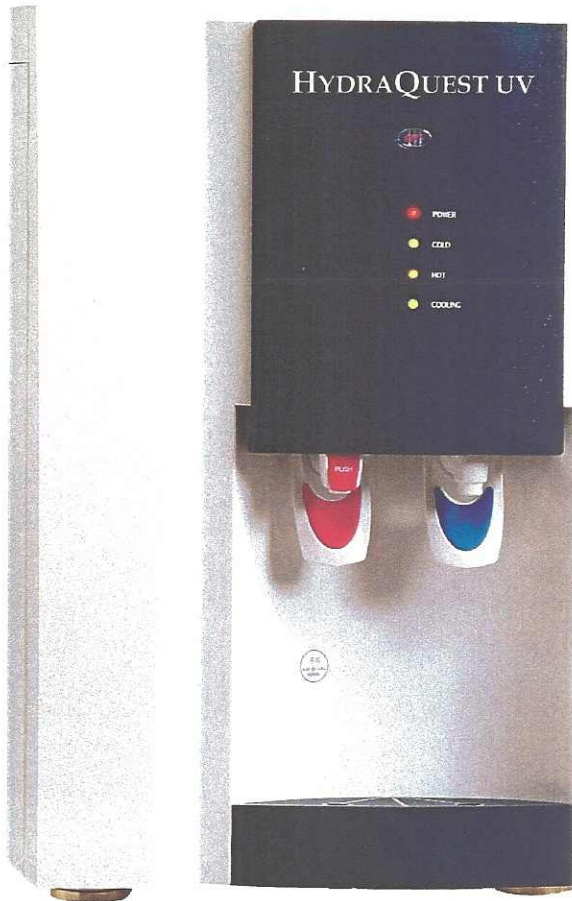

- Manufacturers Pure Water On-Site, Better Than Bottled Water !
- No bottles to deal with or store!
- No back injuries from lifting the bottles!
- No Bio-Film/Slime in the cooler, Self-Sanitizing System Using Ultra-Violet Light to Disinfect the water!
- No waiting for water to be delivered!
- No confusing billing or bottle deposits!

## **Improved Reliability**

- Simple reliable spigot dispensing, no confusing spigots or buttons.
- Spigots are easily accessible with one hand push in dispensing.
- Spigots are designed so you can easily refill sports bottles.
- Child Proof Hot-Tap so someone could not access hot water accidentally.

## **Outstanding Performance**

- Five Stage Purification Process: Sediment, Pre-Carbon, Reverse Osmosis, Post-Carbon and in the last stage the water flows through a stainless steel cylinder with ultra-violet light in the center of it to kill and eliminate any micro-organisms, parasites, viruses, bio-film or bacteria that are too small to be filtered. The result: **Safe Pure Water!**
- This system can produce a high volume of purified water daily with no interruptions.
- The cold is cold and can be adjusted. The hot is HOT!

**HYDRAQUEST UV: The Pure Water Solution!**
